How are you managing you right now? If what you've been doing isn't working & you'd like a bunch of tools & strategies to use for yourself & share with your people, this workshop is just for you!!

Who should attend?

Managers & business owners who want to grow & develop their skills toolbox to support & empower their team members. When teams are skilled to respond constructively to unexpected situations & develop productive and positive responses, everyone benefits by saving time & energy.

“Between stimulus and response there is a space. In that space is our power to choose our response. In our response lies our growth and our freedom.”
